Profile Summary

Recent Computer Applications (BCA) graduate and Data Analyst skilled in end-to-end data pipelines, relational modelling, and visual analytics. Combines a full-stack development background with practical experience from top-tier simulations (Tata Group, Quantum) to clean, structure, and transform complex datasets. Proficient in Python (Pandas, NumPy), SQL (SQLite), and Power BI, with a proven track record of analysing 25,000+ operational records to deliver actionable executive insights.

Skills

- **Data Analytics:** EDA, Data Cleaning & Imputation, Feature Engineering, Relational Data Modelling, KPI Definition
- **Programming:** Python (Pandas, NumPy), SQL (SQLite), JavaScript, HTML/CSS
- **BI & Visualization:** Power BI (KPI Cards, Bar/Column Charts, Dynamic Dashboards), MS Excel
- **AI & Tools:** Gemini, Claude (GenAI-assisted workflows), VS Code, Git/GitHub, MS Office
- **Soft Skills:** Technical Presentation, Business Ethics, Team Collaboration, Data Storytelling
- **Languages:** English, Hindi

Projects

Healthcare Flow & Readmission Analytics

Independent Project

- **Data Engineering:** Processed and imputed missing values across 25,000+ hospital records using Python (Pandas, NumPy) in VS Code.
- **SQL Querying:** Executed SQL (SQLite) aggregations revealing a 71.11% readmission risk among frequent ER users (vs 46.13% standard).
- **Power BI Dashboard:** Designed an executive dashboard using KPI cards and clustered charts to pinpoint bed turnover bottlenecks and resource usage.

Data-Driven Career Navigation Platform

Independent Project

- **Platform Architecture:** Co-developed a career platform using Node.js, Express, and MongoDB, engineering REST APIs to streamline student skill discovery and job readiness.
- **Automated Parser & Test Engine:** Built a PDF resume keyword parser (pdf-parse, Multer) and a score-gated test engine to dynamically unlock projects and AI mentors.

Education

St. Anne's First Grade College

Bachelor of Computer Applications (BCA) - CGPA: 8.4

Little Flower House Senior Secondary School

12th Standard (Mathematics and Science) - 63%

St. Albert High School

10th Standard (Mathematics and Computer Science) - 72%

Bengaluru, Karnataka

July 2023 – July 2026

Varanasi, Uttar Pradesh

April 2021 – March 2023

New Bongaigaon, Assam

April 2020 – March 2021

Certifications & Experiences

Quantium Data Analytics Simulation | *Forage*

July 2026

- **Retail & Store Analytics:** Cleaned transaction data, performed trial store uplift testing, and generated commercial insights for Category Managers.

Tech Stack: Python, Data Cleaning, Statistical Analysis, Customer Segmentation, Uplift Testing, Commercial Reporting.

Tata iQ - GenAI Powered Data Analytics Simulation | *Forage*

July 2026

- **Predictive AI & Strategy:** Conducted AI-assisted EDA to build a no-code delinquency prediction model and agentic collections framework.

Tech Stack: GenAI Tools, Exploratory Data Analysis (EDA), Predictive Risk Modelling, Agentic AI, Compliance Strategy.

Tata Consultancy Services Data Visualization Simulation | *Forage*

July 2026

- **Executive Dashboards:** Processed sales datasets to design interactive dashboards (revenue trends, regional maps) for C-suite decision-making.

Tech Stack: Visual Basic (VBA), Data Cleaning & Interpretation, Dashboard Development, Data Visualization, KPI Tracking.
